

Pricing Policy

Document ID: doc-006	Department: Sales	Sensitivity: INTERNAL
----------------------	-------------------	-----------------------

Version 2.3 | Last updated: 2026-01-05 | Owner: Sales Department

1. Purpose

This document defines the standard pricing tiers, add-ons, and quoting rules that govern how the sales team may price the product for prospective and existing customers. It is the single source of truth for standard pricing; any deviation must follow the Discount Policy approval process.

2. Pricing Tiers

Tier	Monthly (per seat)	Annual (per seat)	Min. Seats
Starter	\$15	\$150	1
Growth	\$35	\$350	5
Enterprise	Custom	Custom	25

Annual billing includes a built-in 2-month discount versus monthly billing (i.e., 10 months' worth of fees for 12 months of service). Enterprise pricing is negotiated case-by-case based on seat count, contract length, and add-ons, and requires Sales Director approval before being quoted.

2.1 Tier Feature Comparison

Feature	Starter	Growth	Enterprise
Core workflow automation	Yes	Yes	Yes
Integrations	Up to 3	Unlimited	Unlimited
Analytics module	Add-on	Add-on	Included
SSO	No	Add-on	Included
Dedicated CSM	No	No	Yes
Support SLA	Best-effort	24-hour	4-hour (or custom)

3. Add-On Pricing

- Advanced analytics module: \$8 per seat per month.
- Priority support (4-hour SLA): \$500 per month flat fee, regardless of seat count.
- Single Sign-On (SSO): included free for Enterprise; \$200 per month flat fee for Growth tier; not available on Starter.

- Additional environments (sandbox/staging instance): \$150 per month, capped at 2 per account.
- Custom onboarding package: one-time fee starting at \$2,000, scoped based on customer complexity.

4. Quoting Rules

Sales representatives may quote list price and any published add-on price directly, without additional approval, for any deal that stays within the boundaries defined below.

- Any quote involving a price not on the published price list must go through the Discount Policy approval process before being communicated to the customer.
- Multi-year contracts (2-3 years) may include an additional 5% and 8% discount respectively, applied at contract signing — this is pre-approved as standard practice and does not require separate sign-off.
- Bundled add-ons (2 or more) may be quoted with a 5% bundle discount on the add-on portion only, pre-approved without additional sign-off.
- Quotes are valid for 30 days from issuance unless otherwise stated in writing to the customer.

5. Currency and Regional Pricing

Base pricing is denominated in USD. Regional pricing in EUR and INR is available and is set at a fixed FX rate updated quarterly by Finance. Sales representatives must use the current published regional price list rather than performing manual currency conversion, to avoid pricing drift between deals closed in the same quarter.

Region	Currency	Rate Review Cadence
North America	USD	N/A (base currency)
Europe	EUR	Quarterly
India	INR	Quarterly

6. Free Trial and Proof-of-Concept

- All tiers include a 14-day free trial with no credit card required.
- Trial extensions beyond 14 days require manager approval and are capped at an additional 14 days.
- Enterprise prospects may request a paid proof-of-concept (POC) engagement of up to 60 days, priced at 20% of the annualized contract value, credited back if the customer signs a full contract within 90 days of POC completion.

7. Renewal Pricing

Standard renewals are quoted at a maximum of 5% year-over-year price increase unless a plan change (tier upgrade, seat count change, or add-on change) is also being made at the same time, in which case pricing is recalculated from the current price list for the new configuration.

Customers on legacy pricing (pricing structures no longer on the current published list) are migrated to current list pricing at renewal, with any increase above 15% phased in over two renewal cycles to avoid customer shock, unless the customer opts to migrate immediately.

8. Non-Profit and Education Pricing

Verified non-profit and accredited educational institutions are eligible for a standard 15% discount off list price across all tiers, pre-approved without manager sign-off provided verification documentation is attached to the opportunity record in the CRM.

9. Roles in the Pricing Process

Role	Responsibility
Sales Representative	Quote within pre-approved boundaries; escalate anything outside them.
Sales Manager	Approve discounts and terms within their designated authority tier.
Sales Director	Approve Enterprise custom pricing and larger discount requests.
Finance	Set and review quarterly FX rates; audit pricing compliance.

10. Frequently Asked Questions

Can I offer a price below Starter tier for a very small customer?

No standard tier exists below Starter. Sub-Starter pricing requires Sales Director approval and is granted only in limited circumstances, such as strategic pilot programs.

How is Enterprise pricing actually determined?

Enterprise pricing starts from a per-seat baseline similar to the Growth tier and is adjusted based on seat count breakpoints, contract length, add-ons bundled in, and any custom implementation work, then reviewed by the Sales Director before being quoted to the customer.

Is this document shareable with customers?

The tier and add-on pricing in Sections 2-3 may be shared externally (it mirrors the public pricing page). Sections on quoting rules, discount bundling, and renewal mechanics are internal-only and must not be shared externally.

11. Policy Ownership

This document is owned and maintained by the Sales Department in coordination with Finance, and is reviewed at the start of each fiscal quarter alongside the regional FX rate update.
