## Coding Standards

These standards ensure consistency and quality across our codebase.

### Python Style:

- Follow PEP 8
- Use type hints
- Write docstrings
- Maximum line length: 100 characters

### Code Organization:

- One class per file
- Group related functions
- Use meaningful names

# Coding Standards

## Testing Requirements:

- Write unit tests for all new code
- Maintain >80% coverage
- Use pytest framework
- Mock external dependencies

## Documentation:

- Document all public APIs
- Include usage examples
- Keep README updated
- Document breaking changes
